

NOTE TO CONTRIBUTORS

General

Polar Meteorology and Glaciology is an annual publication from the National Institute of Polar Research (NIPR). It includes papers on meteorology and glaciology in the polar regions as well as papers presented at the NIPR Symposium on Polar Meteorology and Glaciology. The *Polar Meteorology and Glaciology* accepts four categories of paper; *scientific papers*, *scientific notes*, *review papers* and *reports*. Scientific papers are original articles dealing with major problems related to meteorology, atmospheric chemistry, glaciology, sea ice physics, oceanography, and climatology in the polar regions. Scientific notes are articles dealing with a significant topic, new finding, and preliminary interpretation, etc. Both papers are reviewed by at least two referees for judging the acceptability. Review papers and reports deal with recent development and activities, respectively. These papers are reviewed by at least one referee.

Manuscripts for the Polar Meteorology and Glaciology should be sent to:

- (3) An abstract of not more than 200 words is required.
- (4) Use of the International System of Units (SI) is recommended.
- (5) The title page should include the author(s) name(s), their affiliations and addresses. In case the title contains more than 50 characters, a running title should be indicated on the title page.
