

JAPANESE GEOCHEMICAL DATA IN THE McMURDO DRY VALLEYS  
AND ON ROSS ISLAND, ANTARCTICA

Tetsuya TORII (editor-in-chief)

Japan Polar Research Association,  
3-4, Hirakawa-cho 2-chome, Chiyoda-ku, Tokyo 102

CONTENTS

|   |    |
|---|----|
| 1. Introduction.....  | 5  |
| 2. Analytical Methods.....  | 8  |
| 3. Publications.....  | 11 |
| 4. Victoria Valley  |    |
| Photo 1. Lake Vida.....   | 26 |
| Photo 2. Balham Lake.....   | 26 |
| Fig. 1. McMurdo Sound region, Antarctica.....   | 27 |
| Fig. 2. Lakes and ponds in Victoria Valley.....   | 27 |
| Table 1. Chemical composition of lake puddles and inflow waters to Lake Vida.....   | 28 |
| Table 2. Chemical composition of waters in Balham Lake and unnamed ponds.....   | 29 |
| 5. Wright Valley  |    |
| Photo 3. Aerial view of Lake Vanda. Pronounced old strand lines to the right side<br>indicate higher lake levels in the past (official U.S. Navy photograph)..... | 31 |
| Photo 4. Aerial view of Wright Valley facing east (official U.S. Navy photograph).....  | 32 |
| Photo 5. Lake Vanda from the east.....  | 33 |
| Photo 6. Onyx River at weir near Vanda Station.....   | 33 |
| Photo 7. Don Juan Pond facing west.....   | 34 |
| Photo 8. Antarcticite crystals in Don Juan Pond.....  | 34 |
| Photo 9. Crystals of antarcticite.....  | 35 |
| Photo 10. Don Quixote Pond on the North Fork.....   | 35 |
| Fig. 3. Wright Valley.....  | 36 |
| Fig. 4. Sampling sites in Lake Vanda, Wright Valley (1963 - 1966 field seasons).....  | 36 |
| Fig. 5. Sampling sites in Lake Vanda, Wright Valley (1970 - 1973 field seasons).....  | 37 |
| Fig. 6. Sampling sites in Lake Vanda, Wright Valley (1977 - 1984 field seasons).....  | 37 |
| Fig. 7. Lake Vanda and ponds to the west, Wright Valley.....  | 38 |
| Fig. 8. Onyx River system in Wright Valley.....   | 38 |
| Table 3. Chemical composition of waters in Lake Vanda.....  | 39 |

|   |     |
|---|-----|
| Table 4. Chemical composition of waters in Lake Canopus and unnamed ponds.....                        | 93  |
| Table 5. Sequential change of chemical composition in Don Juan Pond water.....                        | 95  |
| Table 6. Chemical composition of pool waters near Don Juan Pond.....                                  | 101 |
| Table 7. Chemical composition of inflow waters to Don Juan Pond.....                                  | 102 |
| Table 8. Chemical composition of groundwater in DVDP #5 hole.....                                     | 103 |
| Table 9. Stable isotope ratio of groundwater in DVDP #5 hole collected by H. Harris..                 | 103 |
| Table 10. Chemical composition of pond waters in the South Fork.....                                  | 104 |
| Table 11. Chemical composition of pond waters in the North Fork.....                                  | 106 |
| Photo 11. Labyrinth area facing east.....   | 107 |
| Photo 12. L-20 pond in the Labyrinth.....   | 107 |
| Fig. 9. Ponds and glacier ice in the Labyrinth area, Wright Valley.....                               | 108 |
| Table 12. Chemical composition of pond waters in the Labyrinth.....                                   | 109 |
| Table 13. Chemical composition of ice core samples from L-00 pond in the Labyrinth..                  | 127 |
| Table 14. Chemical composition of Wright Upper Glacier ice and fresh snow<br>in the Labyrinth.....    | 128 |
| Table 15. Chemical composition of Onyx River system.....  | 130 |
| Table 16. Water temperature and electric conductivity in Lake Vanda.....                              | 135 |
| 6. Taylor Valley  |     |
| Photo 13. Aerial view of Taylor Valley facing west (official U.S. Navy photograph)...                 | 191 |
| Photo 14. Lake Fryxell facing northeast.....  | 192 |
| Photo 15. Lake Bonney facing east. Two lobes and connecting narrow channel.....                       | 192 |
