

CONTENTS

Preface	Kazuyuki Shiraishi. . .	i
Geochemical characteristics and tectonic setting of metamorphosed rocks in the Tugela terrane, Natal belt, South Africa Makoto Arima, Keiji Tani, Shinichi Kawate and Stephen T. Johnston. . .		1
Preliminary U-Pb geochronology of the Tugela terrane, Natal belt, eastern South Africa Stephen T. Johnston, Richard Armstrong, Larry Heaman, Steve McCourt, Andrew Mitchell, Avi Bisnath and Makoto Arima. . .		40
The nature of the Grenville-age charnockitic A-type magmatism from the Natal, Namaqua and Maud Belts of southern Africa and western Dronning Maud Land, Antarctica Geoffrey H. Grantham, Bruce M. Eglington, Robert J. Thomas and Peter Mendonidis. . .		59
New evidence for prograde metamorphism and partial melting of Mg-Al-rich granulites from western Namaqualand, South Africa Yoshikuni Hiroi, Tomokazu Hokada, Masaaki Beppu, Yoichi Motoyoshi, Toshiaki Shimura, Masaki Yuhara, Kazuyuki Shiraishi, Geoffrey H. Grantham and Mike W. Knoper. . .		87
Petrography and mineral chemistry of high-grade pelitic gneisses and related rocks from Namaqualand, South Africa Tomokazu Hokada, Yoichi Motoyoshi, Yoshikuni Hiroi, Toshiaki Shimura, Masaki Yuhara, Kazuyuki Shiraishi, Geoffrey H. Grantham and Mike W. Knoper. . .		105
Rb-Sr and Sm-Nd systematics of granitic and metamorphic rocks in the Namaqualand Metamorphic Complex, South Africa: Implications for evolution of marginal part of Kaapvaal craton Masaki Yuhara, Hiroo Kagami and Noriyoshi Tsuchiya. . .		127
Note on the mineral texture and chemistry of the eastern Bushveld Complex Sotaro Baba, Tomokazu Hokada, Tetsu Saitoh, Yoshikuni Hiroi, Kazuyuki Shiraishi, Makoto Arima and Robin E. Harmer. . .		145
Two-dimensional measurement of natural radioactivity of some Archean and Proterozoic rocks from South Africa Noriyoshi Tsuchiya and Mihoko Hareyama. . .		167
Author index		178
