

CONTENTS

Preface	Nobuhiko Azuma and Yoshiyuki Fujii ...	i
I Shallow and intermediate ice core drilling		
A review of high-altitude drilling	Bruce Koci ...	1
A fast mechanical-access drill for polar glaciology, paleoclimatology, geology, tectonics and biology	Gary D. Clow and Bruce Koci ...	5
FELICS, a new ice core drilling system for high-altitude glaciers	P. Ginot, F. Stampfli, D. Stampfli, M. Schwikowski and H.W. Gäggeler ...	38
Ice core drilling on Southern Patagonia Icefield—Development of a new portable drill and the field expedition in 1999—	Shiro Kohshima, Takayuki Shiraiwa, Maria Angelica Godoi, Keiji Kubota, Nozomu Takeuchi and Kunio Shinbori ...	49
Ice core drilling on the southern slope of the Nepal Himalayas	Koji Fujita, Fumio Nakazawa, Nozomu Takeuchi, Masayoshi Nakawo, Birbal Rana, Nobuhiko Azuma and Yoshiyuki Fujii ...	59
Performance of intermediate depth portable ice core drilling system on polar and temperate glaciers	V.S. Zagorodnov, L.G. Thompson, E. Mosley-Thompson and J.J. Kelley ...	67
A medium-depth ice core drill	Robert Mulvaney, Steven Bremner, Andrew Tait and Neil Audley ...	82
II Deep ice core drilling		
Deep ice coring at Vostok Station (East Antarctica) by an electromechanical drill	B.B. Kudryashov, N.I. Vasiliev, R.N. Vostretsov, A.N. Dmitriev, V.M. Zubkov, A.V. Krasilev, P.G. Talalay, N.I. Barkov, V.Ya. Lipenkov and J.R. Petit ...	91
Deep ice core drilling to 2503 m depth at Dome Fuji, Antarctica	Yoshiyuki Fujii, Nobuhiko Azuma, Yoichi Tanaka, Yoshiki Nakayama, Takao Kameda, Kunio Shinbori, Kazuo Katagiri, Shuji Fujita, Akiyoshi Takahashi, Kunio Kawada, Hideaki Motoyama, Hideki Narita, Kokichi Kamiyama, Teruo Furukawa, Shuhei Takahashi, Hitoshi Shoji, Hiroyuki Enomoto, Takeshi Saitoh, Morihiro Miyahara, Renji Naruse, Takeo Hondoh, Takayuki Shiraiwa, Kotaro Yokoyama, Yutaka Ageta, Takashi Saito and Okitsugu Watanabe ...	103

Improvements to the JARE deep ice core drill Akiyoshi Takahashi, Yoshiyuki Fujii, Nobuhiko Azuma, Hideaki Motoyama, Kunio Shinbori, Yoichi Tanaka, Hideki Narita, Yoshiki Nakayama, Takao Kameda, Shuji Fujita, Teruo Furukawa, Morimasa Takata, Morihiro Miyahara and Okitsugu Watanabe ...	117
Some thoughts on deep core drilling systems design Herbert T. Ueda ...	126
Some features of ice drilling technology by a drill on a hoisting cable N.I. Vasiliev ...	136
Hydraulic resistance to movement of a drill suspended by a cable in a bore-hole in travelsN.I. Vasiliev and B.B. Kudryashov ...	142
Hole fluids for deep ice core drilling P.G. Talalay and N.S. Gundestrup ...	148
Hydrostatic pressure and fluid density profile in deep ice bore-holes P.G. Talalay and N.S. Gundestrup ...	171
Sticking deep ice core drills: Why and how to recover Niels S. Gundestrup, Sigfus J. Johnsen, Steffen B. Hansen, Hitoshi Shoji, Pavel Talalay and Frank Wilhelms ...	181
Ice core drilling complications V.S. Zagorodnov, L.G. Thompson, E. Mosley-Thompson and J.J. Kelley ...	196
Attenuation of drill cablesNiels S. Gundestrup and Sigfus J. Johnsen ...	206
III Hot water drilling	
Wotan: a drill for ice cubeBruce Koci ...	209
Hot water drilling on the Amery Ice Shelf—the AMISOR project— Michael Craven, Alan Elcheikh, Russell Brand and Nic Jones ...	217
IV On going and future drilling projects	
The EPICA deep drilling programLaurent Augustin and Adriano Antonelli ...	226
Proposal for penetration and exploration of sub-glacial Lake Vostok, AntarcticaS.R. Verkulich, B.B. Kudryashov, N.I. Barkov, N.I. Vasiliev, R.N. Vostretsov, A.N. Dmitriev, V.M. Zubkov, A.V. Krasilev, P.G. Talalay, V.Ya. Lipenkov, L.M. Savatyugin and I.N. Kuz'mina ...	245
A proposed sterile sampling system for Antarctic subglacial lakes Erik W. Blake and Buford Price ...	253
V Bore hole logging, ice core processing and physical properties of ice	
The EPICA borehole logger Eric Lefebvre, Laurent Augustin and Marcel Maitre ...	264

Ice core processing at Dome Fuji Station, Antarctica	Shuji Fujita, Nobuhiko Azuma, Yoshiyuki Fujii, Takao Kameda, Kokichi Kamiyama, Hideaki Motoyama, Hideki Narita, Hitoshi Shoji and Okitsugu Watanabe ...	275
The effect of hydrostatic pressure on crack formation in ice single crystals	Atsushi Miyamoto, Hitoshi Shoji and Kinji Hyakutake ...	287
Microscopic observations on microtomed surface of ice	Kinji Hyakutake, Atsushi Moribe, Atsushi Miyamoto, Kimiko Shimohara and Hitoshi Shoji ...	295
VI Drill camp operation and logistics		
Design, transport, construction, and operation of the summer base Kohnen for ice-core drilling in Dronning Maud Land, Antarctica	C. Drücker, F. Wilhelms, H. Oerter, A. Frenzel, H. Gernandt and H. Miller ...	302
Intermediate depth ice core drilling support systems: power generators and shelters	V.S. Zagorodnov, L.G. Thompson, E. Mosley-Thompson, F. Huffman and J.J. Kelley ...	313
Controller for portable intermediate depth ice core drilling system	V.S. Zagorodnov, F. Huffman, L.G. Thompson and E. Mosley-Thompson ...	321
Program of the Fifth International Workshop on Ice Drilling Technology 2000 ...		326
Author index.....		328
