

Polar Meteorology and Glaciology

No. 20

CONTENTS

Scientific Papers

- Simulation of large-scale ice-sheet surges: The ISMIP HEINO experiments
.....*Ralf Greve, Ryoji Takahama and Reinhard Calov*... 1
- Lower tropospheric vertical distribution of aerosol particles over Syowa Station,
Antarctica from spring to summer 2004
..... *Kazuo Osada, Keiichiro Hara, Makoto Wada,*
Takashi Yamanouchi and Katsuji Matsunaga... 16

Scientific Note

- Arctic experiment for ICESat/GLAS ground validation with a Micro-Pulse Lidar
at Ny-Ålesund, Svalbard
.....*Masataka Shiobara, Masanori Yabuki, Roland Neuber,*
James D. Spinhirne, Ellsworth J. Welton, James R. Campbell,
William D. Hart and Timothy A. Berkoff... 28

Reports

- Joint AWI-NIPR airborne operations in the past and the future
.....*Andreas Herber, Hartwig Gernandt, Wilfried Jokat,*
Uwe Nixdorf, Daniel Steinhage, Heinz Miller,
Renate Treffeisen, Takashi Yamanouchi, Kazuyuki Shiraishi,
Yoshifumi Nogi, Kazuo Shibuya and Makoto Wada... 40
- Ship-borne electromagnetic induction sounding of sea ice thickness in the Arctic
during summer 2003
.....*Kunio Shirasawa, Kazutaka Tateyama, Toru Takatsuka,*
Toshiyuki Kawamura and Shotaro Uto... 53
- Studies of seismic effects on snow stability on mountain slopes
.....*Pavel Chernouss, Yuri Fedorenko, Evgeny Mokrov*
and Nikolay Barashev... 62
- Author index 74
- Announcement of the New Journal from the National Institute of Polar Research
