CONTENTS

Diatom assemblages in the surface water of the Indian Sector of the Antarctic Surface Water in summer of 1999/2000 <i>Yasushi Gomi, Haruko Umeda, Mitsuo Fukuchi and Akira Taniguchi</i>	1
Distribution of chlorophyll- <i>a</i> and sea surface temperature in the marginal ice zone (20°E–60°E) in East Antarctica determined using satellite multi-sensor remote sensing during austral summer <i>Yoriko Arai, Toru Hirawake, Tsuneo Odate, Kentaro Watanabe and Mitsuo Fukuchi</i> . . .	16
A simple method for estimating phytoplankton abundance using a surface seawater monitoring system off Syowa Station during austral summer <i>Tsuneo Odate, Toru Hirawake and Mitsuo Fukuchi</i>	28
A sequencing protocol of some DNA regions in nuclear, chloroplastic and mitochondrial genomes with an individual colony of <i>Thalassiosira nordenskiöldii</i> Cleve (Bacillariophyceae) <i>Naohiro Iwatani, Satoru Murakami and Yoshihiro Suzuki</i>	35
Finding the balance: the effect of the position of external devices on little penguins <i>André Chiaradia, Yan Ropert-Coudert, Marg Healy and Nathan Knott</i> . . .	46
Diving angle of great cormorants <i>Yan Ropert-Coudert, David Grémillet and Akiko Kato</i> . . .	54
Successional changes in mycorrhizal type in the pioneer plant communities of a subalpine volcanic desert on Mt. Fuji, Japan <i>Masaaki Fujiyoshi, Atsushi Kagawa, Takayuki Nakatsubo and Takehiro Masuzawa</i> . . .	60
Freezing tolerance in alpine plants as assessed by the FDA-staining method <i>Wataru Yamori, Hiroyuki Kogami and Takehiro Masuzawa</i>	73
<i>Scientific note</i>	
Seasonal changes in soil temperature on an upper windy ridge and lower leeward slope in <i>Pinus pumila</i> scrub on Mt. Shogigashira, central Japan <i>Koichi Takahashi</i>	82
