

Polar Bioscience

No. 20

CONTENTS

Frontal positions and mixed layer evolution in the Seasonal Ice Zone along 140°E in 2001/02 <i>Shigeru Aoki, Stephen R. Rintoul, Hiroshi Hasumoto and Hideki Kinoshita</i> . . .	1
Subsurface chlorophyll <i>a</i> maximum in the coastal front around St. Paul Island <i>Akihiro Shiimoto</i> . . .	21
Effect of time of day on the recovery from light exposure in ice algae from Saroma Ko lagoon, Hokkaido <i>Andrew McMinn and Hiroshi Hattori</i> . . .	30
Abundance of planktonic thraustochytrids and bacteria and the concentration of particulate ATP in the Greenland and Norwegian Seas <i>Takeshi Naganuma, Hiroyuki Kimura, Risa Karimoto and Nikolay V. Pimenov</i> . . .	37
Effects of starvation on the biochemical composition of blood and body tissue in the Antarctic fish <i>Notothenia coriiceps</i> (Richardson, 1844) and excreted metabolic products <i>Katarzyna Stepanowska, Arkadiusz Nędzarek and Stanisław Rakusa-Suszczewski</i> . . .	46
Rapid increase in Adélie penguin populations in the Lützow-Holm Bay area since the mid 1990s <i>Akiko Kato and Yan Ropert-Coudert</i> . . .	55
Are stomach temperature recorders a useful tool for determining feeding activity? <i>Yan Ropert-Coudert and Akiko Kato</i> . . .	63
Dimethyl sulfoxide-respiring bacteria in Suribati Ike, a hypersaline lake, in Antarctica and the marine environment <i>Masahiro Matsuzaki, Keiko Kubota, Toshio Satoh, Masayuki Kunugi, Syuhei Ban and Satoshi Imura</i> . . .	73
A new application of the SFDA-staining method to assessment of the freezing tolerance in leaves of alpine plants <i>Wataru Yamori, Hiroyuki Kogami, Yoshitaka Yoshimura, Takashi Tsuji and Takehiro Masuzawa</i> . . .	82

Mycorrhizal status of alpine plant communities on Mt. Maedake Cirque in the Japan South Alps	<i>Atsushi Kagawa, Masaaki Fujiyoshi, Miki Tomita and Takehiro Masuzawa</i> . . .	92
A novel bioinformatics tool for phylogenetic classification of genomic sequence fragments derived from mixed genomes of uncultured environmental microbes	<i>Takashi Abe, Hideaki Sugawara, Shigehiko Kanaya and Toshimichi Ikemura</i> . . .	103
Diatoms composing benthic microbial mats in freshwater lakes of Skarvsnes ice-free area, East Antarctica	<i>Taisuke Ohtsuka, Sakae Kudoh, Satoshi Imura and Shuji Ohtani</i> . . .	113
The methane flux along topographical gradients on a glacier foreland in the High Arctic, Ny-Ålesund, Svalbard	<i>Minaco Adachi, Toshiyuki Ohtsuka, Takayuki Nakatsubo and Hiroshi Koizumi</i> . . .	131
<i>Scientific note</i>		
Distribution of Copepoda along 140°E in the Indian sector of the Southern Ocean	<i>Megumu Tsujimoto, Kunio T. Takahashi, Toru Hirawake and Mitsuo Fukuchi</i> . . .	140
Author index		147
Announcement of the New Journal from the National Institute of Polar Research
