

GEOLOGICAL MAP OF SKALLEN (REVISED EDITION)

スカレン地質図 (改訂版)

地形は国土院発行の1:10,000の1号高度(2002)による
Base map is after 1:10,000 photo map published by Geographical Survey Institute in 2002.

ANTARCTIC GEOLOGICAL MAP SERIES, SHEET 39 (2004)

LEGEND 凡例

- Quaternary glacial drift (glacial tillite)
Quaternary glacial drift (glacial tillite)
General glacial drift (glacial tillite)
General glacial drift (glacial tillite)
Quaternary glacial drift (glacial tillite)
Cretaceous glacial drift (glacial tillite)
General glacial drift (glacial tillite)
Holocene glacial drift (glacial tillite)
Cretaceous glacial drift (glacial tillite)
This formation of pebbles, quartzite, calc-silicate and mafic granites
Quaternary glacial drift (glacial tillite)
Basalt, dolerite, or andesite flows
Andesite, dolerite, or basalt flows
Fault
Folds

Radioactive age determination showing age in m.a., method (14C, 10Be, 26Al, 40Ar/39Ar)
Geological age in m.a. (Ma)
Point of sample analysed chemically

Triangulation point
Spot height
Lake or pond
