

Proceedings of the NIPR Symposium

on

Polar Meteorology and Glaciology

No. 6

Papers presented at the “14th Symposium on Polar Meteorology and Glaciology”
held at the National Institute of Polar Research, Tokyo, July 9–10, 1991

CONTENTS

Estimation of surface albedo distribution in Lützow-Holm Bay and its neighborhood with NOAA/AVHRR data <i>Kiyotaka NAKAGAWA</i> ...	1
Microwave signature of polar firn and sea ice in the Antarctic from airborne observation <i>Takashi YAMANOUCI and Makoto WADA</i> ...	16
Moisture budget in the Antarctic atmosphere <i>Koji YAMAZAKI</i> ...	36
Results of ozonesonde observations at Syowa Station in 1990 <i>Seiji SHIBATA and Masao MORIMOTO</i> ...	46
On the vertical profiles of long wave radiation at Syowa Station in Antarctica <i>Masaatsu MIYAUCHI and Nozomu OHKAWARA</i> ...	53
Measurement of falling motion of snowflakes using CCD camera <i>Ken'ichiro MURAMOTO, Kohki MATSUURA, Toru SHIINA, Tatsuo ENDOH and Hiroyuki KONISHI</i> ...	71
A multiple scattering model for the atmosphere-snow system <i>Teruo AOKI</i> ...	77
Vertical profile of ^{210}Pb in an ice core from the Høghetta ice dome in Spitsbergen <i>Toshitaka SUZUKI and Yoshiyuki FUJII</i> ...	84
Atmospheric conditions reflected in chemical components in snow over East Queen Maud Land, Antarctica <i>Kokichi KAMIYAMA, Okitsugu WATANABE and Eiichiro NAKAYAMA</i> ...	88
Vertical profiles of total organic carbon and polar organic compounds in the ice core from Site-J, Greenland <i>Kimitaka KAWAMURA, Kazuhisa YOKOYAMA and Yoshiyuki FUJII</i> ...	99

Preliminary results of hydrography under fast ice in Lützow-Holm Bay, Antarctica in 1990 <i>Takatoshi TAKIZAWA, Shuki USHIO, Toshiyuki KAWAMURA, Kay I. OHSHIMA, Nobuo ONO and Sadao KAWAGUCHI...</i>	106
Analysis of sea ice compactness by image processing <i>Ken'ichiro MURAMOTO, Kohki MATSUURA, Tatsuo ENDOH, Haruhito SHIMODA and Nobuo ONO...</i>	126
Interannual fluctuations of sea ice extent in the Antarctic and associated atmospheric conditions <i>Hiroyuki ENOMOTO, S.-F. TIAN and Takashi YAMANOUCHI...</i>	132
Stratospheric sudden cooling after solar proton event over Syowa Station, Antarctica (abstract) <i>Masahiro KODAMA, Tsuyoshi KOHNO and Hiroshi KANZAWA...</i>	143
Low temperature in winter and ozone-hole in the spring Antarctic stratosphere (abstract) <i>Kouji KONDOH, Yasunobu IWASAKA and Kohji KAWAHIRA...</i>	144
On the estimation of precipitation rate by a new analytical method for the meteorological radar echo (1) (abstract) <i>Mitsuo HOSHIYAMA, Masahiko HATANAKA, Akira NISHITSUJI and Makoto WADA...</i>	145
Integrated liquid water contents and water vapor amounts in March 1988 around Syowa Station (abstract) <i>Makoto WADA, Katsumoto SEKO and Takashi YAMANOUCHI...</i>	146
Synoptic characteristics of extreme weather in July at Syowa Station (abstract) <i>Masayuki UEBAYASHI, Akira IWASAKI and Kohji TSUKAMURA...</i>	147
Variations of carbon isotopic ratio of atmospheric carbon dioxide over Japan (abstract) <i>Takakiyo NAKAZAWA, Shinji MORIMOTO, Shuhji AOKI and Masayuki TANAKA...</i>	148
Measurements of methane concentration in the air and surface seawater on board the icebreaker SHIRASE (abstract) <i>Gen HASHIDA, Takakiyo NAKAZAWA, Masayuki TANAKA, Shuhji AOKI, Takashi YAMANOUCHI, Sadao KAWAGUCHI, Akira SHIMIZU and Masahiko HAYASHI...</i>	149

Measurement of carbon monoxide at Syowa Station (abstract)	
..... <i>Akira SHIMIZU, Hajime AKIMOTO and Gen INOUE</i> ...	150
Chemistry of Antarctic atmospheric aerosols (abstract)	
..... <i>Satoru KANAMORI, Nobuko KANAMORI, Masataka NISHIKAWA, Okitsugu WATANABE and Shuhji AOKI</i> ...	151
A feasibility study on helium isotopes in ice core (abstract)	
..... <i>Yuji SANO, Yasunori TOHJIMA, Hiroshi WAKITA, Yoshihiro MAKIDE, Takeshi TOMINAGA and Yoshiyuki FUJII</i> ...	152
Oxygen isotope profiles of deposited snow in different depositional environments of the Antarctic ice sheet-II (abstract)	
..... <i>Yutaka AGETA and Kokichi KAMIYAMA</i> ...	154
Regional comparative studies on microparticles in polar ice cores (abstract)	
..... <i>Akira HIGASHI, Kenji SASAKI, Hajime YANO and Manami OHARA</i> ...	155
Variations of the past atmospheric CH ₄ concentration deduced from Site-J ice core, Greenland (abstract)	
..... <i>Takakiyo NAKAZAWA, Toshinobu MACHIDA, Masayuki TANAKA, Yoshiyuki FUJII, Shuhji AOKI and Okitsugu WATANABE</i> ...	156
A “hydro-thermal” instability theory of glacier surges (abstract)	
..... <i>Hisashi OZAWA and Gorow WAKAHAMA</i> ...	157
Minor chemical constituents in snow cover on Mizuho Plateau, Antarctica (abstract)	
..... <i>Nobuko KANAMORI, Satoru KANAMORI, Okitsugu WATANABE and Masataka NISHIKAWA</i> ...	158
Experimental studies on the densification rate of water-saturated firn in the accumulation area of temperate glaciers (abstract)	
..... <i>Katsuhisa KAWASHIMA, Tomomi YAMADA and Gorow WAKAHAMA</i> ...	159
Measurement of dielectric constant of model ice (abstract)	
..... <i>Hayao TAKASHIMA, Hisao YAMAKOSHI, Toshio MAEDA and Akio SAKURAI</i> ...	160
Measurement of water temperature profile in coastal polynyas using AXBT (abstract)	
..... <i>Shuki USHIO, Takatoshi TAKIZAWA, Toshiyuki KAWAMURA and Kay I. OHSHIMA</i> ...	161
Some characteristics of ocean circulations in the south hemisphere (abstract)	
..... <i>Jiro FUKUOKA, Hideo MIYAKE and Nobuo ONO</i> ...	162
Program of the 14th Symposium on Polar Meteorology and Glaciology	163
