

Proceedings of the NIPR Symposium

on

Polar Meteorology and Glaciology

No. 7

Papers presented at the "15th Symposium on Polar Meteorology and Glaciology" held at the National Institute of Polar Research, Tokyo, July 8–9, 1992

CONTENTS

Measurements of surface energy of air-hydrate crystals in Vostok ice core, Antarctica <i>Tsutomu UCHIDA, Shinji MAE, Takeo HONDOH, Paul DUVAL and Volodya Ya. LIPENKOV...</i>	1
Effects of air-hydrate crystals on ice grain growth <i>Tsutomu UCHIDA, Shinji MAE, Takeo HONDOH, Paul DUVAL and Volodya Ya. LIPENKOV...</i>	7
The effect of hydrostatic pressure on the formation of air-hydrate crystals <i>Tetsuya IKEDA, Tsutomu UCHIDA and Shinji MAE...</i>	14
Acceleration of oxidation-reduction reactions in freezing solution <i>Norimichi TAKENAKA, Akihiro UEDA and Yasuaki MAEDA...</i>	24
Dielectric properties of NaCl-doped ice at 9.7 GHz <i>Takeshi MATSUOKA, Shuji FUJITA and Shinji MAE...</i>	33
A preliminary study on Geosat altimeter observation in the Southern Ocean <i>Takashi KIKUCHI, Akira SHIBATA and Masaaki WAKATSUCHI...</i>	41
Seasonal variations in ocean structure and current in Ongul Strait, Antarctica, in 1991 <i>Kay I. OHSHIMA, Toshiyuki KAWAMURA, Takatoshi TAKIZAWA, Shuki USHIO, Nobuo ONO and Sadao KAWAGUCHI...</i>	51
Seasonal variations of the sea level at Syowa Station, Antarctica <i>Yutaka NAGATA, Michio KAWAMIYA, Yutaka MICHIDA and Minoru ODAMAKI...</i>	60
Development of automatic weather stations in the Japanese Antarctic Climate Research Program (ACR) <i>Tokio KIKUCHI and Tatsuo ENDOH...</i>	73

Lidar measurements of stratospheric aerosols enhanced after the eruption of Mt. Pinatubo: Alaska, winter 1991/1992 <i>Yasu-nobu IWASAKA, Motoo FUJIWARA, Katsuji MATSUNAGA, Masahiro NAGATANI, Hiroshi NAKADA, Hideharu AKIYOSHI, Satoshi YASUMATSU, Ikuko MORI, Kouji KONDOH and Hideaki NAKANE...</i>	83
Series of observations of atmospheric methane aboard the icebreaker SHIRASE (abstract) <i>Kenji ATARASHI, Isao MURATA, Kazuyuki KITA, Toshihiro OGAWA and Susumu KOKUBUN...</i>	90
On the estimation of precipitation rate by a new method of analysis of meteorological radar echoes (2) (abstract) <i>Mitsuo HOSHIYAMA, Masahiko HATANAKA, Akira NISHITSUJI and Makoto WADA...</i>	91
Infrared and UV-visible absorption measurement at Syowa Station (abstract) <i>Isao MURATA, Kazuyuki KITA, Naomoto IWAGAMI and Toshihiro OGAWA...</i>	92
Cloud-radiative forcing by a multiple scattering model for the atmosphere-snow system (abstract) <i>Teruo AOKI, Tadao AOKI and Masashi FUKABORI...</i>	93
On the estimation of the precipitation rate at each altitude by a new analytical method for the meteorological radar echo (2) (abstract) <i>Masahiko HATANAKA, Mitsuo HOSHIYAMA, Akira NISHITSUJI and Makoto WADA...</i>	94
On interannual fluctuation of the amount of ozone in the Northern Hemisphere (introduction) (abstract) <i>Hiromichi MORI...</i>	95
Characteristics of temperature fluctuation in Svalbard in the Arctic (abstract) <i>Hiroyuki ENOMOTO, Shuhei TAKAHASHI, Shun'ichi KOBAYASHI, Kumiko GOTO-AZUMA and Okitsugu WATANABE...</i>	96
Interannual variation of the stratospheric circulation in the Southern Hemisphere during winter to spring—observation and simulation—(abstract) <i>Koji YAMAZAKI, Masaru CHIBA and Kunihiko KODERA...</i>	97
Ground based NO ₂ and O ₃ measurements by visible spectrometer at Syowa Station, Antarctica (abstract) ... <i>Kei NAKAMURA, Yutaka KONDO, W. Andrew MATTHEWS, Paul V. JOHNSTON, Masahiko HAYASHI, Makoto KOIKE, Yasu-nobu IWASAKA, Akira SHIMIZU, Afif BUDIYONO, Takashi YAMANOUCI and Shuhji AOKI...</i>	98

Relationship between position of long wave upper air westerly trough and weather condition of geological survey area in the Antarctic Ocean (abstract)	<i>Kunihiko BABA</i> ...	99
The source of atmospheric aerosols in inland Antarctica (abstract)	<i>Satoru KANAMORI, Nobuko KANAMORI, Masataka NISHIKAWA, Okitsugu WATANABE, Shuhji AOKI, Yasu-nobu IWASAKA, Fumihiko NISHIO and Kikuo OKADA</i> ...	100
Gaseous acids in the atmosphere at Syowa Station, Antarctica (abstract)	<i>Nobuko KANAMORI, Satoru KANAMORI, Masataka NISHIKAWA and Okitsugu WATANABE</i> ...	101
Time variations of the number concentrations of aerosol particles in west Greenland (abstract)	<i>Katsuhiko KIKUCHI, Takashi TANIGUCHI and Hiroshi UYEDA</i> ...	102
Observational experiment of the Antarctic ozone hole of 1991 under the Polar Patrol Balloon (PPB) Project: (1) A preliminary result of trajectory analysis (abstract)	<i>Hiroshi KANZAWA, Ryoichi FUJII, Koji YAMAZAKI and Manabu D. YAMANAKA</i> ...	103
Observational experiment of the Antarctic ozone hole of 1991 under the Polar Patrol Balloon (PPB) Project: (2) A preliminary result of ozone and aerosol observation (abstract)	<i>Masahiko HAYASHI, Isao MURATA, Yasu-nobu IWASAKA, Yutaka KONDO and Hiroshi KANZAWA</i> ...	104
Comparison of total ozone over Syowa Station between NIMBUS7 TOMS version 6 data and Dobson data (abstract)	<i>Kazuo SHIBASAKI</i> ...	105
Measurements of atmospheric pollutants in Alaska (abstract)	<i>Sachio OHTA, Naoto MURAO and Kentaro HAYASHI</i> ...	106
On vertical profile of ozone at Syowa Station, Antarctica, 1966–1988 (abstract)	<i>Shigeru CHUBACHI</i> ...	107
Aerosol distribution change in the Antarctic winter–Balloon borne experiment during 1991–(abstract)	<i>Masahiko HAYASHI and Yasu-nobu IWASAKA</i> ...	108
Measurements on aerosols collected at Alaska in winter of 1991/1992 (abstract)	<i>Yasu-nobu IWASAKA, Katsuji MATSUNAGA, Ikuko MORI, Yasuhiro MURAI, Masahiro NAGATANI, Hiroshi NAKADA, Satoru KANAMORI and Nobuko KANAMORI</i> ...	109

The recent sea ice conditions in the Sea of Okhotsk (abstract)	
.....	<i>Eturo KAMIHIRA and Saya KONDO</i> ... 110
Variation in the sea ice coverage of the Sea of Okhotsk and the southward extension of the coastal Oyashio Current (abstract)	
.....	<i>Kunio RIKIISHI and Jun TAKAHASHI</i> ... 111
Stepped structure in temperature and salinity profiles, observed near icebergs trapped by fast ice, Antarctica (abstract)	
.....	<i>Kay I. OHSHIMA, Toshiyuki KAWAMURA, Takatoshi TAKIZAWA and Shuki USHIO</i> ... 112
A laboratory experiment on melting of pressure ridge keels in the summer Arctic (abstract)	
.....	<i>Wladyslaw RUDZINSKI and Masaaki WAKATSUCHI</i> ... 113
Long term fluctuations of sea ice area in the Northern Hemisphere (abstract)	
.....	<i>Kiyotomi SATO</i> ... 114
Measurements of the thickness of model sea ice by UHF waves (abstract)	
.....	<i>Hayao TAKASHIMA, Hisao YAMAKOSHI, Toshio MAEDA and Akio SAKURAI</i> ... 115
Growth processes of sea ice in Lützw-Holm Bay (abstract)	
.....	<i>Toshiyuki KAWAMURA, Kay I. OHSHIMA, Shuki USHIO and Takatoshi TAKIZAWA</i> ... 116
Behavior of water in the Brøgger Glacier, Spitsbergen (abstract)	
.....	<i>Shun'ichi KOBAYASHI, Shuhei TAKAHASHI, Hiroyuki ENOMOTO, Kumiko GOTO-AZUMA and Okitsugu WATANABE</i> ... 117
Preliminary results of crevasse detection experiment in the Antarctic by short pulse radar (abstract)	
.....	<i>Akira TAKAHASHI, Takeshi SUITZ, Ken'ichi OKAMOTO, Seiho URATSUKA, Okitsugu WATANABE and Yoshiyuki FUJII</i> ... 118
Pore close-off regions observed in polar firn/ice core samples (abstract)	
.....	<i>Atau MITANI, Hitoshi SHOJI, Chester C. LANGWAY, Jr. and Henrik B. CLAUSEN</i> ... 119
Program of the 15th Symposium on Polar Meteorology and Glaciology	121
