

Proceedings of the NIPR Symposium

on

Polar Meteorology and Glaciology

No. 9

Papers presented at the "Seventeenth Symposium on Polar Meteorology and Glaciology" held at the National Institute of Polar Research, Tokyo, July 13-14, 1994

CONTENTS

Historical records of fatty acids in an ice core from Site-J, Greenland <i>Kimitaka KAWAMURA, Ikuko SUZUKI, Yoshiyuki FUJII</i> <i>and Okitsugu WATANABE</i> . . .	1
Preliminary measurement of high-frequency electrical conductivity of Antarctic ice with AC-ECM technique <i>Ken SUGIYAMA, Shuji FUJITA, Shigeru SUEOKA,</i> <i>Shinji MAE and Takeo HONDOH</i> . . .	12
Bubble formation experiments in snow densification <i>Seigo ISHII, Hideki NARITA and Norikazu MAENO</i> . . .	23
Determination of the trace elements in a Mizuho ice core sample by a combination of conventional and high resolution inductively coupled plasma mass spectrometry <i>Tadashi SHIMAMURA, Masato IWASHITA, Yuu-ichi TAKAKU,</i> <i>Isoko AKABANE, Akito TSUMURA and Shin-ichi YAMASAKI</i> . . .	33
Hydrological observations in Bregger Glacier basin, Spitsbergen —Discharge, temperature and electric conductivity— <i>Yuji KODAMA, Yukari TAKEUCHI, Hironori NAKABAYASHI</i> <i>and Okitsugu WATANABE</i> . . .	45
Characteristics of evaporation from snow and tundra surface in Spitsbergen in the snowmelt season 1993 <i>Yukari TAKEUCHI, Yuji KODAMA and</i> <i>Hironori NAKABAYASHI</i> . . .	54
Data-logging automatic weather station along the traverse route from Syowa Station to Dome Fuji <i>Hiroyuki ENOMOTO, Hideo WARASHINA, Hideaki MOTOYAMA,</i> <i>Shuhei TAKAHASHI and Jinji KOIKE</i> . . .	66

Relation between surface ice flow and anisotropic internal radio-echoes in the East Queen Maud Land ice sheet, Antarctica <i>Hideo MAENO, Shuji FUJITA, Kokichi KAMIYAMA,</i> <i>Hideaki MOTOYAMA, Teruo FURUKAWA and Seiho URATSUKA</i> ...	76
Numerical simulation of Shirase Glacier, East Queen Maud Land, Antarctica <i>Frank PATTYN and Hugo DECLEIR</i> ...	87
A method of measuring snow particle size from video images for meteorological radar observations <i>Masahiko HATANAKA, Yoshiyuki OHTA, Akira NISHITSUJI,</i> <i>Takeshi SAKAGUCHI and Makoto WADA</i> ...	110
Comparative study of the surface radiation budget at Ny-Ålesund, Svalbard and Syowa Station, Antarctica, 1987 <i>Takashi YAMANOUCI and Jon Børre ØRBÆK</i> ...	118
Effective emissivity of clouds from radiometersonde measurements at Syowa Station, Antarctica <i>Akira YAMAMOTO, Takashi YAMANOUCI and Makoto WADA</i> ...	133
Seasonal change of the atmospheric heat budget over the Southern Ocean from ECMWF and ERBE data in 1988 <i>Itaru OKADA and Takashi YAMANOUCI</i> ...	146
Concentration changes of MSA and major ions in Arctic aerosols during polar sunrise <i>Keisuke SUZUKI, Kimitaka KAWAMURA, Hideki KASUKABE,</i> <i>Ayako YANASE and Leonard A. BARRIE</i> ...	160
Year-to-year variations of the horizontal ozone distributions in the Northern Hemisphere winter <i>Kohji KAWAHIRA and Masahiro WAKASHIMA</i> ...	169
Measurement of dielectric loss of ice I _h at microwave frequencies with cavity resonator (abstract) <i>Takeshi MATSUOKA, Shuji FUJITA,</i> <i>Shigenori MORISHIMA and Shinji MAE</i> ...	180
Concentration changes of dicarboxylic acids and water soluble organic carbon in the Arctic aerosols at polar sunrise (abstract) <i>Kimitaka KAWAMURA, Hideki KASUKABE</i> <i>and Leonard A. BARRIE</i> ...	181
Behavior of chemical substances in the surface snow in the Dome Fuji area (abstract) <i>Kazuki NAKAMURA, Yutaka AGETA, Masayoshi NAKAWO</i> <i>and Kumiko GOTO-AZUMA</i> ...	182
Distribution of chemical components between atmosphere and snow phases in East Queen Maud Land (abstract) <i>Satoru KANAMORI, Nobuko KANAMORI, Okitsugu WATANABE</i> <i>and Hideaki MOTOYAMA</i> ...	183

Stratospheric HCl, HF, and N ₂ O in Antarctica observed with solar infrared absorption method (abstract)	
..... <i>Isao MURATA, Kazuyuki KITA, Naomoto IWAGAMI and Toshihiro OGAWA</i> ...	184
Measurement of atmospheric dimethylsulfide at Syowa Station, Antarctica (abstract)	
..... <i>Ipppei NAGAO, Seiji KOGA, Hiroshi TANAKA and Shuhji AOKI</i> ...	185
Report on the result of regional ozone soundings in Antarctica 1993 (abstract)	
..... <i>Okimasa SUGITA, Toshinori TAKAO, Jinji KOIKE, Yoshihiro KAMATA and Keizo SAKURAI</i> ...	186
Planetary- and synoptic-scale variations of ozone and their relationship to the dynamical field (abstract)	
..... <i>Masato SHIOTANI, Chikanobu IKEDA and Isamu HIROTA</i> ...	187
Long-term trends of atmospheric concentrations of trace halocarbons in the Southern and Northern Hemispheres (abstract)	
..... <i>Yoshihiro MAKIDE and Takeshi TOMINAGA</i> ...	188
Ozone topics in the Russian federations (abstract)	
..... <i>Hiromichi MAKITA</i> ...	189
Effect of volcanic aerosols on the polar stratospheric temperature (abstract)	
..... <i>Kiyotaka SHIBATA</i> ...	190
Cryogenic whole air sampling in the stratosphere over the Antarctic: Problems and countermeasures (abstract)	
..... <i>Hideyuki HONDA, Nobuyuki YAJIMA, Takashi YAMANOUCHI, Shuhji AOKI, Shinji MORIMOTO and Takakiyo NAKAZAWA</i> ...	191
Interannual variability of planetary wave activity in the southern hemisphere (abstract)	
..... <i>Hiromatsu AOKI, Masato SHIOTANI and Isamu HIROTA</i> ...	192
On the relationship between the OLR distribution pattern over Antarctica and the variation of atmospheric circulation in the southern troposphere (abstract)	
..... <i>Naohiko HIRASAWA and Takashi YAMANOUCHI</i> ...	193
Modeling of oceanic carbon cycle (abstract)	
..... <i>Yasuhiro YAMANAKA and Eiichi TAJIKA</i> ...	194
Analysis of weather and clouds by surface synoptic data at Syowa Station (abstract)	
..... <i>Toshinori TAKAO and Jinji KOIKE</i> ...	195
An estimation of the warming rate by warm air advection over Syowa Station (abstract)	
..... <i>Toshinori TAKAO and Yoshihiro KAMATA</i> ...	196
Development of a coupled ice-ocean general circulation model (abstract)	
..... <i>Hiroyasu HASUMI and Yasuhiro YAMANAKA</i> ...	197

A subarctic ocean current driven by sea surface cooling (abstract)	
..... <i>Kunio RIKIISHI and Takahiko NAKASHIMA</i> ...	198
Eddy flux measurements under the first-year sea ice in the Greenland Sea during the Northeast Water Polynya (NEW) Project, 1993 (abstract)	
..... <i>Kunio SHIRASAWA, Tohru TAKATSUKA and Masaaki AOTA</i> ...	199
On the measurement of Okhotsk sea ice by the patrol ship SOYA (abstract)	
..... <i>Shotaro UTO, Kenkichi TAMURA and Haruhito SHIMODA</i> ...	200
Spectral albedo and transmittance of snow containing impurities (abstract)	
..... <i>Teruo AOKI, Tadao AOKI, Masashi FUKABORI and Hajime IIDA</i> ...	201
Snow microwave remote sensing of Antarctica: Comparison between measurements and modeling (abstract)	
..... <i>Sylviane SURDYK</i> ...	202
Recent satellite observations at Syowa Station, Antarctica (abstract)	
..... <i>Hideo WARASHINA and Hiroyuki ENOMOTO</i> ...	203
Program of the 17th Symposium on Polar Meteorology and Glaciology.....	204
Author index	208
