

Proceedings of the NIPR Symposium

on

Polar Meteorology and Glaciology

No. 10

Papers presented at the “Eighteenth Symposium on Polar Meteorology and Glaciology” held at the National Institute of Polar Research, Tokyo, July 18–19, 1995

CONTENTS

Structure and dielectric properties of surface snow along the traverse route from coast to Dome Fuji Station, Queen Maud Land, Antarctica <i>Takayuki SHIRAIWA, Hitoshi SHOJI, Takashi SAITO,</i> <i>Kotaro YOKOYAMA and Okitsugu WATANABE . . .</i>	1
Snow surface features along the traverse route from the coast to Dome Fuji Station, Queen Maud Land, Antarctica <i>Teruo FURUKAWA, Kokichi KAMIYAMA and Hideo MAENO . . .</i>	13
Measurements of the complex permittivity of acid-doped ice from 1 kHz to 30 MHz —New data set for developing the ice radar and dielectric analysis of ice core— <i>Kenichi MATSUOKA, Shuji FUJITA, Takeshi MATSUOKA,</i> <i>Toshihiro ISHIDA, Takeo HONDOH and Shinji MAE . . .</i>	25
Volcanic records and dating of the upper half of the H15 ice core from Mizuho Plateau, East Antarctica <i>Mika KOHNO, Takaaki FUKUOKA,</i> <i>Yoshiyuki FUJII and Minoru KUSAKABE . . .</i>	36
Variations of the CO ₂ , CH ₄ and N ₂ O concentration and δ ¹³ C of CO ₂ in the glacial period deduced from an Antarctic ice core, South Yamato <i>Toshinobu MACHIDA, Takakiyo NAKAZAWA, Hideki NARITA,</i> <i>Yoshiyuki FUJII, Shuhji AOKI and Okitsugu WATANABE . . .</i>	55
Formation mechanism of plate-like ice crystals growing in air at low temperature and low supersaturation <i>Takehiko GONDA, Yuki MATSUURA and Makoto WADA . . .</i>	66
Diffusion coefficient and solubility measurements of noble gases in ice crystals <i>Kouichi SATOH, Tsutomu UCHIDA, Takeo HONDOH and Shinji MAE . . .</i>	73
Preliminary analysis of temperature changes due to synoptic scale disturbances at Syowa Station, Antarctica in winter <i>Nozomu NAITO and Hisafumi MURAMATSU . . .</i>	82

Measurements of the oxygen isotopic ratio of atmospheric CO ₂ at Syowa Station, Antarctica	<i>Shohei MURAYAMA, Takakiyo NAKAZAWA, Shuhji AOKI, Shinji MORIMOTO, Akira SHIMIZU, Masahiko HAYASHI, Sadao KAWAGUCHI and Masayuki TANAKA</i> ...	92
Size distribution of aerosol particles over the western Pacific Ocean and the Southern Ocean	<i>Kazuhiko MIURA, Sigeru NAKAE, Kazuhide MATSUDA, Naoto TSUGE and Kazuma AOKI</i> ...	102
Methanesulfonate and non-sea-salt sulfate in drifting-snow from east Queen Maud Land, East Antarctica	<i>Kazuo OSADA</i> ...	111
Interannual variability of sea ice conditions in Syowa Station sector deduced from DMSP SSM/I data	<i>Hiroyuki ENOMOTO, Hideo WARASHINA, Takashi SAITO and Takayuki SHIRAIWA</i> ...	119
Classification of polar satellite data using image features and decision tree classifier	<i>Ken'ichiro MURAMOTO and Takashi YAMANOUCHI</i> ...	127
Decrease of solute in the aqueous solution in the freezing process	<i>Keiichi SATO, Tohru DAIMON, Norimichi TAKENAKA, Hiroshi BANDOW and Yasuaki MAEDA</i> ...	138
JARE-35 glaciological activity at Dome Fuji Station, Antarctica (abstract) ..	<i>Hitoshi SHOJI, Takashi SAITO, Takeshi SAITO, Takayuki SHIRAIWA, Yuji TAGUCHI, Kotaro YOKOYAMA, Takeo HONDOH, Okitsugu WATANABE, Hideaki MOTOYAMA, Teruo FURUKAWA, Motoaki TAKEKAWA and Yutaka AGETA</i> ...	149
Observations on the evaporation-condensation process and heat-balance during the austral summer at the snow surface of Dome Fuji Station, East Antarctica (abstract) ..	<i>Takayuki SHIRAIWA, Yuji TAGUCHI, Takashi SAITO, Hitoshi SHOJI, Kotaro YOKOYAMA, Okitsugu WATANABE, Hiroyuki ENOMOTO, Yuji KODAMA and Yukari TAKEUCHI</i> ...	150
Vertical profiles of ice sheet measured with a mobile radio echo sounder in East Queen Maud Land, Antarctica (abstract)	<i>Hideo MAENO and Seiho URATSUKA</i> ...	151
Depth-age calculations for large polar ice sheets (abstract)	<i>Atsushi MIYAMOTO, Takeo HONDOH and Hitoshi SHOJI</i> ...	152
Chemical reactions in polycrystalline ice (abstract)	<i>Norimichi TAKENAKA, Tohru DAIMON, Hiroshi BANDOW and Yasuaki MAEDA</i> ...	153
Precise measurement of dielectric loss of ice at 5–40 GHz (abstract)	<i>Takeshi MATSUOKA, Shuji FUJITA, Shigenori MORISHIMA and Shinji MAE</i> ...	154

Meteorological observations by data-logging automatic weather station at Dome Fuji Station (abstract)	
.....	<i>Hiroyuki ENOMOTO, Hideaki MOTOYAMA, Takayuki SHIRAIWA, Takashi SAITO, Takao KAMEDA, Teruo FURUKAWA, Shuhei TAKAHASHI and Okitsugu WATANABE</i> ... 155
Blowing snow experiment at Halley Station, Antarctica (abstract)	
.....	<i>Kouichi NISHIMURA, Masaki NEMOTO, John C. KING, Stephen MOBBS and Julian C.R. HUNT</i> ... 156
The variability of the westerly jets and the activity of planetary waves in the stratospheric and mesospheric winter Southern Hemisphere as observed from Nimbus 6 PMR (abstract)	
.....	<i>Yuuji MATSUZAKI and Masato SHIOTANI</i> ... 157
On the estimation of the precipitation rate at each altitude by a new analytical method for the meteorological radar echo (5) (abstract)	
.....	<i>Masahiko HATANAKA, Shinya KIMURA, Yutaka YOSHIDA, Makoto WADA and Naohiko HIRASAWA</i> ... 158
Observation of stratospheric NO ₂ at Syowa Station, Antarctica (abstract)	
.....	<i>Akane KAWAGUCHI, Yutaka KONDO, Makoto KOIKE, Hideaki NAKAJIMA, Shuhji AOKI, Takashi YAMANOUCI, Michihiro KOIDE, Ipppei NAGAO and Kunimoto IWAI</i> ... 159
Laser heterodyne spectrometer observations of stratospheric O ₃ , N ₂ O, HNO ₃ and CH ₄ at Syowa Station, Antarctica (abstract)	
.....	<i>Michihiro KOIDE, Makoto TAGUCHI, Hiroshi FUKUNISHI and Shoichi OKANO</i> ... 160
Annual variation of total ozone at Syowa Station, Antarctica (abstract)	
.....	<i>Shigeru CHUBACHI</i> ... 161
Meridional ozone distribution analyses using the ozone sonde data observed onboard the icebreaker SHIRASE (abstract)	
.....	<i>Rintaro OSHIMA and Masato SHIOTANI</i> ... 162
Distributions of lipid class compounds in Antarctic aerosols collected at Syowa Station (abstract)	
.....	<i>Mutsumi NISHIKIORI, Kimitaka KAWAMURA and Masahiko HAYASHI</i> ... 163
Chemical compositions of sea salt particles and particulate sulfur components at Syowa Station, Antarctica (abstract)	
.....	<i>Keiichiro HARA, Tadashi KIKUCHI, Keiichi FURUYA, Masahiko HAYASHI, Yoshiyuki FUJII and Yasunobu IWASAKA</i> ... 164
A numerical investigation of the marginal ice zone using a simple ice-ocean coupled model (abstract)	
.....	<i>Yasushi FUKAMACHI</i> ... 165
The origin of sea ice in the Sea at Okhotsk (abstract)	
.....	<i>Jinro UKITA, Toshiyuki KAWAMURA and Noriyuki TANAKA</i> ... 166
Mechanisms for the seasonal cycle in the Antarctic coastal oceans (abstract)	
.....	<i>Kay I. OHSHIMA</i> ... 167

Ice production and convective-mixing in the Antarctic coastal polynya (abstract)	
.....	<i>Shuki USHIO, Takatoshi TAKIZAWA,</i>
	<i>Kay I. OHSIMA and Toshiyuki KAWAMURA</i> . . . 168
Temporal variations of passive microwaves from the ice sheet (abstract)	
.....	<i>Hiroyuki ENOMOTO and Hideo WARASHINA</i> . . . 169
Program of the 18th Symposium on Polar Meteorology and Glaciology	170
