

Fig. A. A map of the routes of the oversnow traverses in the Mizuho Plateau-West Enderby Land area by JARE 10 and 11, in 1969 - 1970 and 1970 - 1971.

JARE 10 covered subdivisional routes S, A, B and C, and JARE 11 subdivisional routes S, Z, Y, W and X. Route G (dotted line) was covered by JARE 11 (Shimizu et al., 1972).

●: principal station (numeral is the station number and a Roman letter the name of the subdivisional route: see Table A of Introduction).

The contour lines of the ice sheet were drawn at interval of 100m in elevation.
