

ANTARCTIC RECORD No. 54

CONTENTS

Scientific Papers

- Studies of cosmic-ray scintillations observed at Syowa Station, Antarctica (I) (in Japanese)...*Masatoshi Kitamura, Hiroshi Ikegami and Masahiro Kodama*..... 1
- Stratospheric electric fields and currents measured at Syowa Station, Antarctica (in Japanese)...*Yoshikazu Tanaka, Toshio Ogawa and Masahiro Kodama*.....18
- Solar radiation balance at Mizuho Camp, East Antarctica (in Japanese)
.....*Sadao Kawaguchi and Hiroshi Sasaki*.....34
- The relationship of bedrock, surface elevation and snow accumulation in Enderby Land, East Antarctica (in Japanese)...*Fumihiko Nishio and Kou Kusunoki*.....42
- Geochemical investigation of ice sheets in Mizuho Plateau and West Enderby Land (in Japanese).....*Masayo Murozumi*.....49
- Fabric studies on a 1 meter-deep snow core from Mizuho Plateau, East Antarctica.....*Masayoshi Nakawo*.....68
- Iceshock swarms observed at Mizuho Camp, Antarctica
.....*Katsutada Kaminuma and Masayoshi Takahashi*.....75
- On the parasites of fishes from the Antarctic Ocean
.....*Noboru Kagei and Tomohiko Watanuki*.....84
- Cultivation of Antarctic microalgae (2)
Isolation and culture of Antarctic diatom *Achnanthes brevipes* var. *intermedia* from the bottom sand of the salt lakes at Skarvsnes in Lützow-Holm Bay, Antarctica (in Japanese)
.....*Tomohiko Watanuki and Masao Ohno*.....94

Reports

- Submarine topography near Syowa Station, Antarctica (in Japanese)
..... *Kiichi Moriwaki*... 101
- Summary of the First Symposium on Antarctic Glaciology, May 26, 1975, Tokyo (in Japanese)*Kou Kusunoki*... 116
