

## ANTARCTIC RECORD No. 76

### CONTENTS

#### *Scientific Papers*

- On the size distribution of submicron aerosols in the Antarctic atmosphere (in Japanese) ..... *Tomoyuki Ito*..... 1
- Partitioning of chemical elements into mineral species in core sediment from Don Juan Pond using selective chemical leaching technique.....*Chisato Tomiyama and Yasushi Kitano*..... 20
- On-board test on the performance of a surface ship gravity meter NIPRORI-1...*Jiro Segawa, Takashi Kasuga and Katsutada Kaminuma*..... 36
- Sea gravity measurement in the Antarctic region on board the ice-breaker FUJI in the 22nd Japanese Antarctic Research Expedition.....*Takashi Kasuga, Katsutada Kaminuma and Jiro Segawa*..... 44
- Evaluation of the geoid based on the SEASAT altimetry data at sea around Antarctica .....*Jiro Segawa*..... 55
- Utilization of an NNSS receiver in the explosion seismic experiments on the Prince Olav Coast, East Antarctica 1. Recovered UTC.....*Kazuo Shibuya and Katsutada Kaminuma*..... 63
- Utilization of an NNSS receiver in the explosion seismic experiments on the Prince Olav Coast, East Antarctica 2. Positioning.....*Kazuo Shibuya, Kiyoshi Ito and Katsutada Kaminuma*..... 73
- Measurements of underground and underwater temperatures by quartz thermometers at Syowa Station, East Antarctica .....*Kazuo Shibuya, Toshiyasu Nagao and Katsutada Kaminuma*..... 89
- Notes on the aggressiveness of non-breeding Adélie Penguins and their response to the eggs .....*Yasuomi Tamiya and Masahiro Aoyanagi*.....101

#### *Report*

- Some observations on the marine organisms at Syowa Station and its adjacent waters (in Japanese).....*Mitsuo Yamanaka*.....105

#### *News*

- Accession list of serials, National Institute of Polar Research Library.....114
