

ANTARCTIC RECORD No. 86

CONTENTS

Scientific Papers

- Snow crystals of hollow-prism type observed at Mizuho Station, Antarctica.....*Makoto Wada and Takehiko Gonda*..... 1
- Observations of the relative humidity in the katabatic wind area, Mizuho Station in East Antarctica.....*Makoto Wada*..... 9
- Salt origin in the Wright Valley, Antarctica
.....*Chisato Tomiyama and Yasushi Kitano*..... 17
- Vertical distribution of nutrients and DOC in lake waters near Syowa Station, Antarctica.....*Fukashi Fukui, Tetsuya Torii and Shiro Okabe*..... 28

Reports

- Report on the geological, geomorphological and geodetic field work in the Sør Rondane Mountains, 1985 (JARE-26) (in Japanese)
.....*Kiichi Moriwaki, Kazuyuki Shiraishi, Shuji Iwata, Satoru Kojima, Akira Suzuki, Kei Terai, Seiichi Yamada and Masashi Sano*..... 36
- Japanese geochemical studies on the McMurdo Sound region in Antarctica during the 1983–84 austral summer (in Japanese)
.....*Genki I. Matsumoto, Tetsuya Torii, Tamio Kawano, Tsurahide Cho and Yoshiharu Kobata*.....108

Symposium/Meeting Report

- Report on the seminar “Problems of Ice Navigation” (in Japanese)
.....*Yoshio Yoshida*.....119

News

- Antarctic place-names newly decided by the Antarctic place-names committee of Japan in March 1985 (in Japanese)
.....*National Institute of Polar Research*.....125
